Any party receiving a signed electronic document may rely on that Digital Signature to the extent that they are authorised by contract with the Certificate Holder, or by legislation pursuant to which that Digital Certificate has been issued, or by commercial law in the jurisdiction in which that Digital Certificate was issued.

AN AUTHORISED RELYING PARTY IS THE INTENDED BENEFICIARY OF THE WARRANTIES SET OUT IN THE AUTHORISED RELYING PARTY AGREEMENT.

IN ORDER TO BECOME AN AUTHORISED RELYING PARTY YOU MUST READ AND AGREE TO THE TERMS OF THIS AUTHORISED RELYING PARTY AGREEMENT (“AGREEMENT”) BEFORE YOU USE, VALIDATE OR OTHERWISE RELY UPON ANY QUOVADIS DIGITAL CERTIFICATE. YOUR USE IS PERMITTED AND CONDITIONED ON YOUR ACCEPTANCE OF THIS AGREEMENT. IF YOU DO NOT ACCEPT THE TERMS OF THIS AGREEMENT, YOU ARE NOT AN AUTHORISED RELYING PARTY, ANY RELIANCE BY YOU IS AT YOUR OWN RISK. THIS AGREEMENT INCORPORATES BY REFERENCE ANY CERTIFICATE POLICIES AND/OR CERTIFICATION PRACTICE STATEMENTS REFERENCED IN THE CERTIFICATE AND THE CONDITIONS OF THE APPLICABLE ROOT CERTIFICATE POLICY/CERTIFICATION PRACTICE STATEMENT (“CP/CPS”) LOCATED AT http://www.quovadisglobal.com/repository.

CAPITALIZED TERMS NOT DEFINED IN THIS AGREEMENT HAVE THE MEANING SPECIFIED IN THE CP/CPS.

There are a number of instances where the legal and regulatory framework regarding the issuance of Qualified Certificates under the Swiss, Dutch or European Digital Signature regimes require deviation from QuoVadis standard practices. In these instances, this Document shows these differences either by indicating in the body of the text “For Qualified Certificates” or with the inclusion of a Text Box as follows:

- This flag denotes a provision relating to Qualified Certificates issued in accordance with Swiss regulations
- This flag denotes a provision relating to Qualified Certificates issued in accordance with Dutch regulations.

1. Reliance: An Authorised Relying Party may utilise Certificates and their corresponding public keys only for authorised and legal purposes and only in support of transactions or communications supported by the QuoVadis Public Key Infrastructure (PKI).

An Authorised Relying Party shall not place reliance on a Certificate unless the circumstances of that intended reliance constitute Reasonable Reliance (as set out below) and the actions of that Authorised Relying Party are otherwise in compliance with the terms and conditions of this Agreement.

For the purposes of this Agreement, the term “Reasonable Reliance” shall mean;

(a) that the attributes of the Certificate relied upon and the level of assurance in the Identification and Authentication provided by the Certificate are appropriate in all respects to the level of risk and the reliance placed upon that Certificate by the Authorised Relying Party;
(b) that the Authorised Relying Party has, at the time of that reliance, used the Certificate for purposes appropriate and permitted by the CP/CPS and under the laws and regulations of the jurisdiction in which the Authorised Relying Party is located;
(c) that the Authorised Relying Party has, at the time of that reliance, acted in good faith and in a manner appropriate to all the circumstances known, or circumstances that ought reasonably to have been known, to the Authorised Relying Party;
(d) that the Certificate intended to be relied upon (and each Certificate in the Certificate Path to the QuoVadis Root Certificate) is valid and has not been revoked, the Authorised Relying Party being obliged to check the status of that Certificate utilizing either the QuoVadis database, the QuoVadis Certificate Revocation List (CRL) or the QuoVadis Online Certificate Status Protocol (OCSP) Responder;
(e) that the Authorised Relying Party has, at the time of that reliance, verified the Digital Signature, if any;
(f) that the Authorised Relying Party has, at the time of that reliance, verified that the Digital Signature, if any, was created during the Operational Term of the Certificate being relied upon;
(g) that the Authorised Relying Party ensures that the data signed has not been altered following signature by utilising trusted application software;
(h) that the signature is trusted and the results of the signature are displayed correctly by utilising trusted application software;
(i) that the identity of the Certificate Holder is displayed correctly by utilising trusted application software; and
(j) that any alterations arising from security changes are identified by utilising trusted application software.

Note: If the circumstances indicate a need for additional assurances, it is your responsibility to obtain such assurances.

Certificates issued under the QuoVadis PKI are not designed, intended, or authorized for use or resale as control equipment in hazardous circumstances or for uses requiring fail-safe performance such as the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control systems, or weapons control systems, where failure could lead directly to death, personal injury, or severe environmental damage. QuoVadis and its Certificate Authorities and Registration Authorities are not responsible for assessing the appropriateness of the use of a Certificate. You agree as an Authorised Relying Party that Certificates will not be used or relied upon by you beyond the limitations set forth in this Agreement.

You acknowledge and agree, to the extent permitted by applicable law, that where a transaction is required to be in writing, a message or other record bearing a digital signature verifiable with reference to a Certificate is valid, effective, and enforceable to an extent no less than had the same message or record been written and signed on paper. Subject to applicable law, a digital signature or transaction entered into with reference to a Certificate shall be effective regardless of the geographic location where the Certificate is issued or the digital signature created or used, and regardless of the geographic location of the place of business of the Issuing Certificate Authority or Certificate Holder.
